PERSONAL INFORMATION

Full Name: Thuso Ndou

Contact Number: 0713255377

Email Address: thusondou30@gmail.com

Date of Birth: 2001-12-21

Gender: Male

Nationality: South African

Home Language: Tshivenda

Other Languages: English, Zulu, Sotho

Current Town/City: Midrand

Driver's License: Yes

PROFESSIONAL SUMMARY

BSc Information Technology graduate (North-West University, 2025) who has built 30+ projects across web development, data analysis, and cloud computing. Proficient in C#, Java, Python, React, Node.js, and Microsoft Azure, with certifications in IBM Data Science, Cisco Cybersecurity, and the MTN App Academy hackathon. I solve problems by writing clean, working code and I'm eager to contribute to a team as an entry-level software developer or data analyst.

SKILLS

- Software Design & Development
- Data Interpretation & Analysis
- Technical Support & Troubleshooting
- API Development & Integration
- Process Automation & Optimization
- User Training & Documentation
- Project Management & Collaboration

EDUCATION

North-West University

Bachelor of Science in Information Technology

2022 - 2025 | Completed

Major Courses Completed:

- Descriptive Statistics

- Introductory Mathematics
- Business Management
- Graphical Interface Programming
- Structured Programming
- Financial Accounting
- BasicMathematical Techniques
- Systems Analysis and Design
- Object-Oriented Programming
- Apps and User Interface Programming
- Discrete Mathematics
- Data Analytics
- Information Security
- Data Structures and Algorithms
- Artificial Intelligence
- Computer Networks
- IT Developments
- Databases
- Operating Systems
- Decision Support Systems

Eduvos

BSc Honours in Data Science

2026 - Current | Incomplete

Major Courses Completed:

- Research Methodologies in IT Research
- Data Mining and Data Administration
- Natural Language Processing with Python
- Service-oriented and Microservices Architectures
- Time Series Analysis and Forecasting
- Big Data Analytic Techniques
- Communication in Data Science
- Research Project

PROJECTS

Knolink – AI-Powered Research Workspace - Personal Project

2025

A web app that helps students and researchers organise their notes, summarise articles using AI, and save sources in one place. Users can create research projects, take notes with rich text, and get AI generated summaries of pasted text.

Role: Developer – designed the database schema, built the React frontend, implemented Node.js/Express backend, integrated OpenAI API for summarisation, set up Firebase authentication and deployed on Azure

Key Learning: Third-party API integration, Firebase sync, JWT auth, Tailwind responsive design, full-stack deployment.

Skills: React, TypeScript, Node.js, Express, Firebase, OpenAI API, Tailwind CSS, Git, Azure

Full Stack Commerce Platform with Stripe - Personal Project

2024

An online store with product catalogue, shopping cart, user authentication, and payment processing. Includes an admin dashboard to add/edit products and view orders.

Role: End to end development – built React frontend with context API for cart state, created Node.js/Express REST API, integrated Stripe payment gateway, stored products/orders in MongoDB.

Key Learning: Stripe payment integration and webhooks, MongoDB data modelling for e commerce, Protected routes and admin authentication, Environment variables for API keys, Responsive product grid and filtering

Skills: React, Node.js, Express, MongoDB, Stripe API, JWT, Git

AWARDS & SHORT COURSES

Sep 2022 Cisco Introduction to Cybersecurity - Cisco

Mar 2023 IBM Data Science Foundations- Level1 - IBM

Apr 2023 IBM Data Science Tools - IBM

Dec 2022 MTN Business App Academy Intermediate-POE (Certificate of completion) - MTN

Jul 2024 Ayoba Business Chat API Hackathon - Ayoba

Dec 2024 Chongqing Polytechnic University of Electronic Technology Basic Training on Network Security Management - Chongqing Polytechnic University of Electronic Technology

2023 Golden Key International Honour Society Member - Golden Key International Honour Society
